

I Betcha...

Want to create a friendly and playful atmosphere while still enjoying an evening with family or friends? Then *I Betcha...* is the game for you!

How do you play? Everyone receives a secret card with three amusing challenges that must be carried out in front of others without being caught.

Think it's easy? How do you steer the conversation towards Græco-Roman wrestling? How do you mess up someone's hair without being discovered? What reason would you have to clap your hands and not draw suspicion? Fortunately for you, the player who falsely accuses is penalised.

Apart from providing entertainment at dinner parties and get-togethers, *I Betcha...* appeals to games clubs as something that can be played at the same time as their usual activities! *I Betcha...* is a fun party game that has been a monster success in its native Canada, selling over 40,000 copies. The box contains 50 cards (150 challenges) and 1 rule booklet.
