

Crazy Kick

Crazy Kick is quick-playing, fast-paced card game. Players want to get their cards on the table as quickly as possible. As it's a football game, the aim is to get the 'ball' along the 'field' and into the opposing team's 'goal'. The other team may be able to tackle or intercept to move the ball the other way. First team to five goals wins.

The game was previously published as *Fußball Ligretto* by Schmidt Spiele. This version was launched by DLP Games at Spiel '09.
