

Treasure of the Dark Tower (Schätze des Dunklen Turmes)

Long, long ago mighty magicians lived in a dark tower where they learnt the many colours of magic. Their power gave them access to different dimensions, from which they gathered many treasures.

The legend of the many treasures held in the dark tower spread across the land. Adventurers are drawn to the challenge of the maze and guards that protect the dark tower's secret. Only true courage will pierce to the heart of the tower and retrieve the treasure.

The players are adventurers exploring the maze-like corridors of the tower. Here they will encounter guards and artefacts, enhance their abilities and, hopefully, gain the four keys needed to unlock the treasure vault. Of course, they can also hinder the other players...

- Designed by Andrew Volkovskiy
- For 2-5 players, aged 8+
- Playing Time 60 minutes
- RRP £35.00 (inc VAT)
- Trade price £18.26 (ex-VAT)
