

Day & Night

Day & Night is a strategic board game where two players duel with asymmetric decks of cards.

Their objective is to create 'Temples' by establishing a square of cards on the board. Players do this by using their limited resources to play 'Spell' cards and move their pawn across the board to gain more spells. The many spells and strategies make every game different than the other and exciting until the very last turn.

Day & Night is beautifully illustrated with over 40 full-colour pictures, specially created for this game by fantasy artist Eerin Vink.

Day & Night can be played online at www.dn-boardgame.com
