

## Duel in the Dark Pilot Games

This is a terrific looking game that pits two players in a head to head contest. *Duel in the Dark* recreates the clash between bombers and anti-aircraft defences in the night-time skies of 1943 Germany. There are lots of scenarios, each of which plays in 30-45 minutes.

The game is easy to get into with lots of optional rules to add extra complexity – and more of a challenge. *Duel in the Dark* was designed by Friedemann de Pedro.
