## Niche

### The game where it pays to be different!

*Niche* is a quick, fun and deceptively simple card game. It is a game of bucking the trend, keeping your options open and closing down the opposition. Will you play safe and pick up your points where you can or take a risk and hold out for a better score?

The rule structure of *Niche* involves a restriction of choices. Each player must select cards from their hand and it is these choices that give the sense of control. On a reasonably basic level this becomes a gentle balance between puzzle solving and tactics.

50p from each game sold is donated to The Foundation for Conductive Education. The Foundation works with children and adults who have conditions such as Cerebral Palsy, MS or Parkinson's, helping them to lead more independent lives.
