

## That's Life!

Would you believe it? Just as you thought you were about to win the game, you collect the minus card!

Well, that's life!

Even the last card can change everything. After all—he who laughs last, laughs loudest!

Players use their skills—and luck—to collect as many plus (+) and fortune cards as possible, while trying to avoid the minus (-) cards. The fortune cards are particularly important because they can convert any collected minus cards into plus cards. The player with the most points at the end of the game is the winner.

*That's Life* can be played in several different ways, guaranteeing many years of playing fun with family and friends!
