

Tri 3D

Tri 3D is played on a unique 3-tier triangular board. Crystal clear, it would look just as good in a display cabinet as it would in a games cupboard.

Each player takes it in turns to move their counter one space at a time around the board attempting to capture and remove all their opponents' counters by surrounding or cornering them. The ability to jump between the platforms adds an extra dimension to this exciting game of strategy, skill and cunning.

The skill is in recognising the opportunities—and the threats—to sneak up on players and catch them off guard by jumping levels.

On the publisher's website is a useful video that demonstrates just how to play the game: <http://www.tri3d.co.uk/play.aspx>

- For 2-3 players, aged 8+
- Playing Time 60 minutes
- Designed by Paul Young
- Published by PaNic Games
- RRP £15.00/€18.00 (inc VAT)
- Trade price £7.66/€9.19 (ex-VAT)
